

AREA 10 SPS – 360° work light with exchangeable battery

ORIGINAL
SCANGRIP

SINCE 1906

// AREA 10 SPS is the worlds' first compact and portable area work light with exchangeable battery. Providing a diffused and uniform light, it is ideal for the professional user who requires powerful and efficient illumination of the entire work site.

- Diffused, non-blinding light, up to 10000 lumen
- Portable due to compact design and low weight
- DUAL SYSTEM 2in1 with exchangeable battery pack – use both rechargeable with battery or with power supply from the battery charger
- Integrated backup function – up to 1h use with 1000 lumen without battery or cable
- Dimmable in five steps
- User-friendly BLUETOOTH light control app

Change between 360° and 180° illumination

PATENT PROTECTED

// Powerful illumination of the entire work site

AREA 10 SPS provides a diffused and non-blinding work light with large dispersion. You can change between 360° and 180° illumination according to the work task and adjust the light output into five different levels by the built-in dimmer function. The compact design with a carrying handle makes AREA 10 SPS extremely handy and easy to move around. It is also supplied with a hook for flexible positioning and can be mounted directly on the SCANGRIP TRIPOD.

// High flexibility and long operating time

AREA 10 SPS is supplied with the innovative SCANGRIP POWER SOLUTION system, providing high flexibility and unlimited availability to light. You can easily exchange the battery or simply add the charger directly to the lamp to get power supply. AREA 10 SPS also has an integrated battery backup function and is supplied with a built-in power bank with USB outlet to charge mobile devices.

// BLUETOOTH light control

With the integrated BLUETOOTH light control, you get an extraordinary possibility to turn on/off the work light and adjust the light output through your mobile device. This feature saves time from manual operation and increases work efficiency on a daily basis.
