

NOVA-EX R CM

Rechargeable **CRI+** EX PROOF work light for the paint booth

Powerful and rechargeable explosion proof COB LED work light providing extremely bright illumination and complete flexibility everywhere where there is no access to electricity.

NOV-EX R CM is designed with the newest state-of-the-art LED technology for the professional user. The COB (chip on board) LED technology provides a uniform and completely even illumination with a high 95 **CRI+** (colour rendering index) value close to daylight which is particularly effective for inspection and quality check in the spray booth.

The body is made of diecasted aluminium and shockproof to endure even strong strokes and shocks. Both work lights endure the rough, wet and dirty conditions of the professional working environment, and are completely waterproof (IP65).

By the integrated carrying handle it is convenient to carry the work light from one work place to the other. The flexible stand can be used as a hanger and to position the lamp in the desired angle.

SCANGRIP EX work lights are approved and certified by

according to the ATEX Directive no. 2014/34/EU effective from April 2016 and according to

TECHNICAL SPECIFICATIONS

High CRI COB LED
 95 **CRI+**
