

MULTIMATCH 3

High CRI+ LED work light with exchangeable batteries

Outstanding and powerful rechargeable work light providing up to 3000 lumen for inspection of large surfaces during polishing, painting and cleaning operations as well as for colour match.

The work light features the unique ALL DAYLIGHT function, providing you with the option to choose between 5 different colour temperatures. The 5-step dimmer function makes it possible to adjust the light into five different levels depending on the job at hand.

The SCANGRIP POWER SOLUTION provides you with unlimited availability to light. Easily you can insert a new fully charged battery and continue the work while another battery is charging. Or you can simply add the charger directly to the lamp to get power supply. The integrated battery backup function prevents you from being without light at any time.

With the BLUETOOTH lighting control app you are able to control and adjust both the light output and the colour temperatures, along with a range of other useful, wireless functions improving daily work efficiency.

The SCANGRIP DIFFUSER 03.5750 accessory gives you increased functionality and new possibilities to adapt your work light even further to the specific work task. The light diffuser spreads and softens the light while avoiding hard shadows. It is easy and safe to mount the cover on your SCANGRIP lamp.
