

TOWER 8 CONNECT

8000 lumen floodlight with integrated tripod for power tool battery packs

ORIGINAL
SCANGRIP
SINCE 1906

TOWER 8 CONNECT is a tripod with two built-in floodlights – an ideal choice for painting and installation projects.

It is designed with 360° flexible and turnable floodlights that can be easily adjusted to achieve optimal lighting angles. Compared to the previous model, TOWER 8 CONNECT has 200 more LEDs, offering an incredible 60 % increased light output. It provides 8000 lumen with an adjustable light output (50-100 %) and has an improved electronic design.

TOWER 8 CONNECT is compatible with the METABO/CAS 18 V battery system, as well as other 18 V/20 V battery packs from the leading power tool brands, by using a SCANGRIP CONNECTOR. Moreover, the work light stands out with its unique feature to operate on battery power or seamlessly transition into a corded model via the POWER SUPPLY CONNECT, ensuring unlimited lighting.

Equipped with an integrated handle and weighing only 5.2 kg, this work light is lightweight and easy to transport. The QUICK-FOLD system makes it fast to set up the tripod in only a few seconds and fold again when the job is done.

BATTERY, CHARGER, CONNECTORS AND POWER SUPPLY ARE SOLD SEPARATELY
