

I-VIEW INFINITY

Headlamp with sensor and rechargeable USB-C battery

ORIGINAL
SCANGRIP

SINCE 1906

EU DESIGN
PATENT PEND.

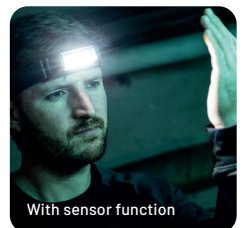

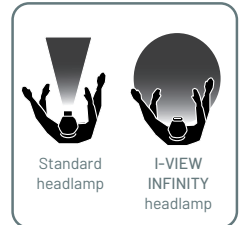

Built for professionals who need uninterrupted illumination, I-VIEW INFINITY is a powerful LED headlamp featuring a smart and efficient charging system.

It comes with two rechargeable USB-C batteries. Easily remove the empty battery, recharge it via USB-C, and continue working seamlessly with a fully charged battery. The headlamp can also be recharged directly using the charging cable included, offering a high level of flexibility based on personal preference.

Unlike standard headlamps, I-VIEW INFINITY provides wide, even illumination across the entire work area with up to 400 lumens. In sensor mode, you can easily turn it on or off by waving your hand in front of the lamp - even when wearing thick gloves. A user-friendly battery indicator lets you quickly see how much power is left.

The headlamp has a lightweight and durable design with a comfortable woven band and is both dust and waterproof (IP65). For longer projects, operating time can be extended with the optional SCANGRIP POWER BANK 03.5962 accessory.

Powered by a high efficiency multi-LED design of 14 LEDs, I-VIEW offers an adjustable light output up to 400 lumen. The OPTILight setting delivers the required illuminance (LUX) in a typical work situation, ensuring optimized light and runtime with a simple touch. This work light provides a constant lumen output performance measured according to the European standard EN 13032-1.

TECHNICAL SPECIFICATIONS

High efficiency multi-LED design with 14 LEDs

40-400 lumens

3.5 - 41 h operating time

7.75 h operating time with OPTILight

3.65 V / 2600 mAh Li-ion

130° / 80° viewing angle
