# ***LIGHTING SOLUTIONS FOR ANY WORKSHOP TASK***

## **Automotive essentials**

Efficient repair work at the automotive workshop requires efficient and powerful work lights. The sophisticated SCANGRIP work lights are second-to-none and made for you who wants the best tool you can get for the task.

In this brochure you will find SCANGRIP's range of specialized lighting solutions for automotive lifts and a carefully selected range of classic inspection work lights. All SCANGRIP work lights are of a very high quality and designed for daily work at the busy workshop.

## **Work lights of the future**

SCANGRIP constantly push back the boundaries of LED lighting and

battery technology, creating new cutting-edge work lights. We always reach for that extra brightness, that extra operation time that make a real difference. We guarantee to provide you with only premium products for optimal performance.

## **Extreme durability and functional design**

SCANGRIP work lights are extremely durable and made to last and do the job again and again. The entire product line is sturdy and endures the really demanding working environment, which expose both you - the professional auto mechanic - and your tools to rough, wet, and dirty conditions.

## ***LINE LIGHT - UNIQUE LIGHTING CONCEPT FOR THE WORKSHOP***

**LINE LIGHT** is a flexible lighting solution for universal application designed for use anywhere where strong, efficient and concentrated light in a specific working area is needed.

- “Unbreakable” - extremely sturdy and shockproof
- Waterproof to resist wet and dirty workshop environment
- Low voltage 24V DC
- Technical lifetime of LEDs 100,000 hours
- Made in Denmark

### **GO GREEN – a better choice for the climate**

SCANGRIP work lights are a choice in a greener direction where the climate impact is minimized on an everyday basis. All our lighting solutions are developed to be energy saving and with a long lifetime.

Compared to traditional fluorescent tube lighting LINE LIGHT only consumes half the amount of electricity which presents serious cost savings on electricity. In addition, you also avoid the cost of new pipes and fittings.

MADE IN DENMARK

**SCANGRIP®**

INNOVATION FROM DENMARK

### Bright illumination - exactly where you need it

By means of a built-in prism, LINE LIGHT concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Blinding during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle.

### Innovative LED technology

The LINE LIGHT series is based on the newest state-of-the-art LED technology. LINE LIGHT provides much more illumination compared to the traditional 36W fluorescent tubes which are commonly used within the industry. The quality of the light is extremely powerful, like daylight which is optimum for precise recognition of colours, shades and other product details. The uniform, flicker free illumination without strobe effects also minimizes the risk of accidents.

### Extreme durability

LINE LIGHT is constructed by a closed "unbreakable" extruded acrylic profile which makes it extremely sturdy and shockproof to endure even strong strokes, shocks and vibrations from industrial machinery. LINE LIGHT endures the rough, wet and dirty conditions of the professional working environment within the industry and is resistant to both oil and chemicals. The IP67 classification means that it is resistant to both dust and water. LINE LIGHT is completely maintenance free.

**ULTRA  
SLIM  
DESIGN  
Ø25mm**

# COMPACT LIGHTING SOLUTIONS FOR YOUR AUTOMOTIVE LIFTS

LINE LIGHT 4 is a flexible lighting solution, providing an extremely powerful illumination of the entire undercarriage. The slim and compact design (only ø25mm) leaves space for the center jack to pass.

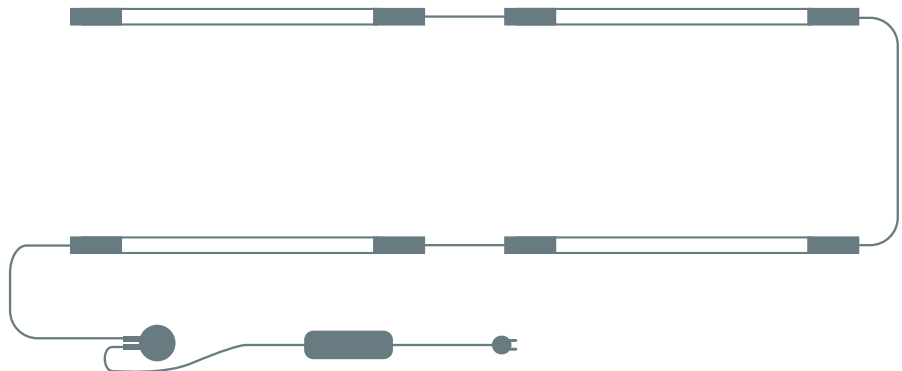

## Easy DIY installation

As LINE LIGHT is a low operating voltage (24V DC) system, you can easily do the installation yourself. All basic fittings are supplied with each kit together with power supply and cable. The pre-defined LINE LIGHT kits are considered universal and will fit the majority of all automotive 4-post lifts, regardless of the manufacturer or brand.

- Extremely powerful illumination of working area
- Improves work efficiency and working conditions
- Avoid blinding the mechanic during work
- Adjustable lighting angle

**LINE LIGHT 4 IS  
ESPECIALLY USEFUL  
FOR AUTOMOTIVE LIFTS  
AND PITS BUT CAN ALSO  
BE USED FOR OTHER  
WORK TASKS**

## 4-POST LIFTS

**Product

# ***FLEXIBLE LIGHTING SOLUTION FOR YOUR 2-POST LIFT***

**THE FLEXIBLE SYSTEM  
ENABLES YOU TO USE LINE  
LIGHT 2-POST FOR OTHER  
WORK TASKS.**

**USE THE LAMP FOR  
INSPECTION TASKS OR  
REPAIR WORK BY THE  
WHEEL ARCH OF THE CAR.**

**NEW**

Upgraded product

**LINE LIGHT 2-POST is a universal all-in-one solution always available at hand and ready to use when needed.**

The lighting unit can be positioned everywhere underneath the car with magnets and can be moved under the car to the actual repair work.

Due to the 5 m spiral cable, the lamp can easily be used for illumination around the entire car, or as a dedicated lamp for engine bay or wheel arch illumination.

- Fits all 2-post lifts and mobile column lifts regardless of type
- Designed to be mounted on existing lifts
- Integrated part of lift
- Easy and uncomplicated to mount
- No drilling in the lift construction
- Incl. DIMMER function

## **LINE LIGHT 2 POST**

Unique lighting solution for 2-post lifts and column lifts each providing 1250 lumen.

Consists of 2 pcs LINE LIGHT 75 lighting units with 96 PLCC2 LEDs, ø25x770mm incl 8m cable, a 25W power supply with 5m cable and the LINE LIGHT dimmer.

Item no. 03.5225

the product**

**€ 403.<sup>90</sup>**

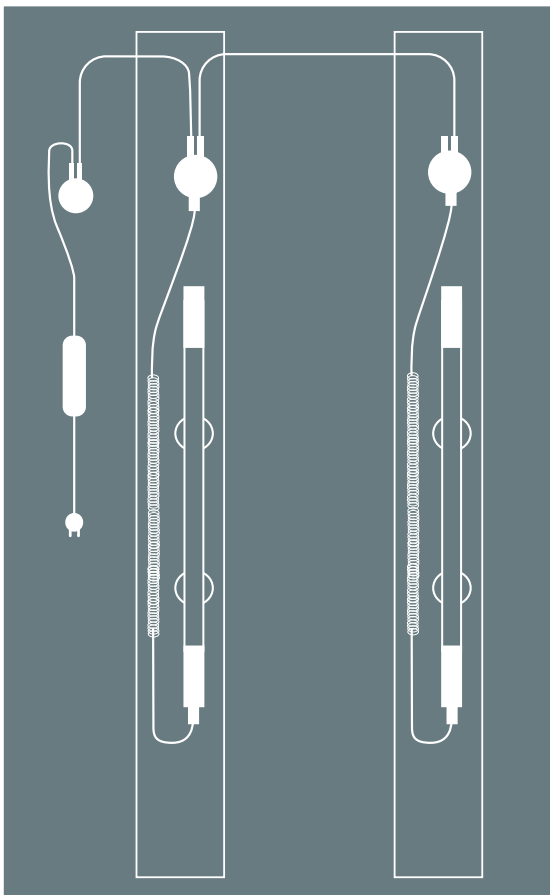

Ball joint ensures flexible mounting.

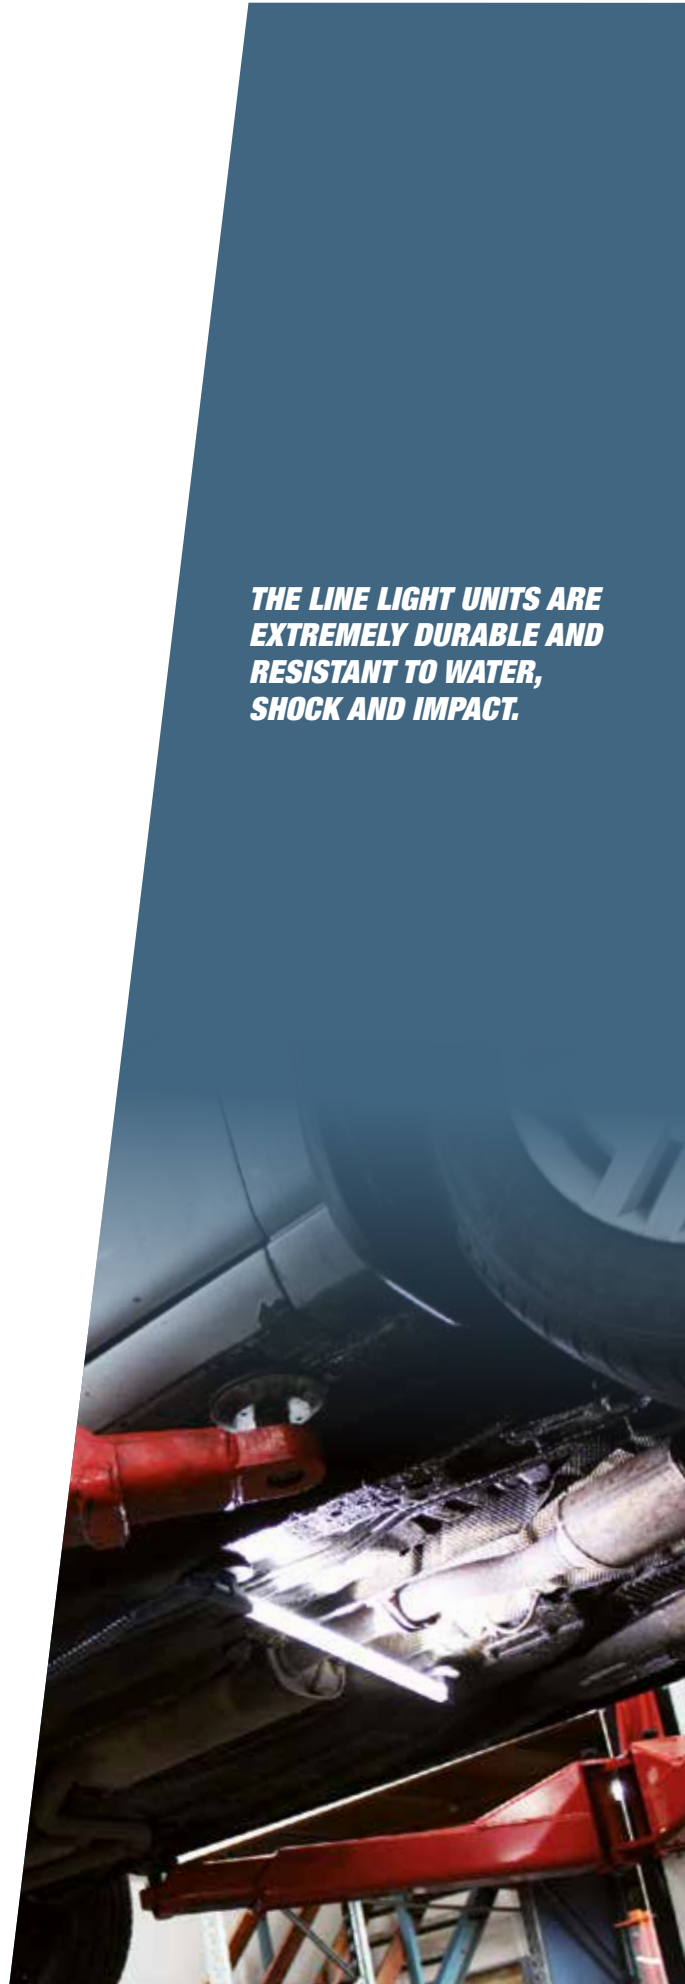

Flexible arm with clip holder and soft suction cup provides flexible positioning of the LINE LIGHT and optimal lighting conditions for repair work by the wheel arch of the car.

## Easy and flexible lighting solution

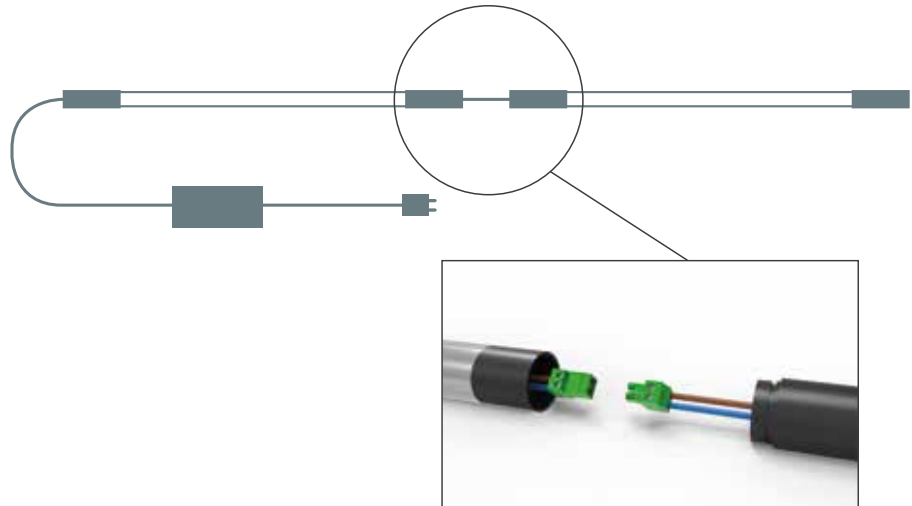

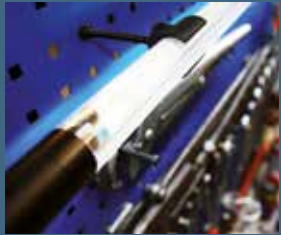

Each lighting unit is supplied with 1 m spiral cord stretched to 5 m with magnetic junction box. Includes 2 pcs strong magnetic clip holders for flexible suspension.

**THE LINE LIGHT UNITS ARE  
EXTREMELY DURABLE AND  
RESISTANT TO WATER,  
SHOCK AND IMPACT.**

# CUSTOMIZED LIGHTING SOLUTION FOR THE WORKSHOP

The LINE LIGHT lighting units are available in different lengths which can either be used alone or connected in a string to fit all kinds of application.

## DESIGN YOUR OWN SOLUTION

### Flexibility that meets your specific needs

Combine lighting units with power supply, cable and suitable suspensions. A range of flexible suspensions makes it possible to position the lighting units exactly where you need it.
